**DETAILED ACTION**

1. This is in responsive to RCE filed on 17 March 2005.
2. Claim 14 has been cancelled.
3. Claim 22 has been added new.
4. Claims 1 – 13, and 15 – 22 are allowed.

***Reasons For Allowance***

5. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention distinguishes over the prior art for following reasons.

The independent claims 1,19, and 20 are allowable over the art of record in view of applicant's arguments in amendment filed on 23 February 2005 that, Kuo and Chaudhry does not disclose multiphased signals and none of the references either alone or in combination, discloses or renders obvious an apparatus and method for implementing SCSI equalization as claimed in invention with a first plurality of parallel switches configured to receive a multiphased signal having N phases, where N is a positive integer, to control a first output voltage and a second plurality of parallel switches configured to receive complement of said multiphased signal and to control a second output voltage to provide rise time control of differential wave form.

The independent claim 21 is allowable over the prior art of record because none of the references either alone or in combination, discloses or renders obvious an apparatus as claimed in invention with a first and a second plurality of parallel switches to provide a rise time control of differential wave form and driven by a phased data signal, and a first driver and second driver configured in parallel to synchronize to a

phased clock signal and are clocked by multiphase clock signal, and a clock generation to generate multiphase clock in response to a data signal and precompensation signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
